Monitoring projects' progress and impact

Hassan Virji, Chair of the SUGI Expert Committee on Innovation and Impact Delivery

Tina Vuga, Slovenian Research Agency (ARRS)

SUGI approach to monitoring

- **Novel and proactive approach** to innovation and impact delivery at programme and projects' level
- Objectives:
 - Facilitate conditions and opportunities for stakeholder engagement by generating a collaborative environment for the effective innovation and impact delivery to the Urban Innovation Ecosystem.
 - Enhance the exchange and liaison in research and innovation.
 - Enhance exchange of resulting knowledge/innovation, between European and global communities and markets.

SUGI Projects' inputs

- 2 annual **progress reports**, 1 final report
- 2 annual **policy briefs**, 1 final policy brief
- 2 annual **innovation briefs**, 1 final innovation brief

Novelties, processes & information flows 1/2

- **SUGI Expert Committee on Innovation and Impact Delivery (ECIID)**
 - 6 globally highly renowned experts with complementary competences - from academia to practitioners

How is ECIID going to operate?

- With the support of the monitoring team the ECIID will develop a **Toolkit** with definitions, indicators and benchmarks to assess innovation and impact projects are making through their lifetime
- ECIID will meet annually → **not to grade** projects' progress, **rather to support** you with their feedback → **recommendations** on how to further enhance innovation-driven processes and maximise impact of your work

Novelties, processes & information flows 2/2

Feedbacks' flows:

- **Project Coordinators' Group** (15, meets twice a year)
- **Project Officers Group'** (15, participate at projects' meetings, link between PCG and ECIID)
- Policy & Innovation Briefs used by the **SUGI Communication team** to reach out to policy makers, cities and industry

- JPI Urban Europe and Belmont forum FAs (systemic feedback)
