

FROM URBAN RESILIENCE TO ROBUSTNESS CIRCULAR ECONOMY ON CITY LEVEL

This session will, within the framework of the dilemma, narrow the focus to circular economy on city level. A note from the Urban Agenda for the EU partnership on circular economy with Indicators for circular economy (CE) transition in cities will be presented and participants will be invited to give feed-back for next steps, i.e. how to develop methods and definitions on city level and identify research and innovation activities to give the indicators a solid base. A case presentation from London will inspire further discussions. The note on indicators will be available at www.jpi-urbaneurope.eu by the end of January and distributed to participants that have signed up for the session.

Questions for elaboration and discussions:

- What is innovation in circular economy?
- How to make sure that indicators are leading towards circular economy?
- Need of data and are these data availability on city level – and with acceptable quality?
- How can we implement circular economy in business models?
- What can JPI Urban Europe do to support a solid knowledge base for indicators?

Co-hosted by: JPI Urban Europe and the Urban Agenda for the EU Partnership on circular economy

Chair: *Christian Strauß*, Project Management Jülich, Member of the JPI Urban Europe Governing Board

Co-chair: *Håkon Sandven Jentoft*, Senior Executive Officer, Agency for Waste Management, City of Oslo, Coordinator of the Urban Agenda for the EU Partnership on circular economy

Case city: *Clare Ollerenshaw*, London Waste and Recycling Board

Programme

14.00 Introduction

Introduction to the dilemma by Christian Strauß

Indicators for circular economy on city level, Håkon Sandven Jentoft

14.15 Ice breaker

14.25 Case presentation: *Clare Ollerenshaw*, London Waste and Recycling Board

14.35 Group Discussion

Part 1: Define: What is innovation in circular economy?

Part 2: Define knowledge and capacity needs, including research and innovation

Part 3: Identify three top priority activities from the JPI Urban Europe side

15.25 Wrap up – key messages from the discussion

15.30 Workshop ends
