

## International workshop Nature based solutions for urban resilience

Organised by IEFE-Bocconi &  
Urban Europe Research Alliance (UERA)  
5th June 2018, Milan

The aim of the workshop is to analyse and compare applications of planning, evaluation and management approaches to nature based solutions at urban scale and to assess their impacts in terms of economic development, environmental conservation, improved social cohesion and stakeholder engagement. The keynote speakers will shortly be announced and the program will be published on the [IEFE-Bocconi website](#).

### The call for abstract submission is now open!

The proposals should cover the following themes:

1. Policy instruments for NBSs implementation
2. Evaluation methodologies and indicators for NBSs
3. Impacts of urban forest and NBSs in cities: case studies
4. Financial instruments and business models for NBSs

Selected papers will be presented during the workshop. Furthermore, selected papers will be published in a special issue of the [EPEE - Economics and Policy of Energy and Environment Journal](#).

Please send your abstract (max. 600 words) to  
iefe@unibocconi.it  
Submission deadline **7th May 2018**
