

Lasting solutions are inclusive, involving a diversity of stakeholders, and incorporating multiple values

Are You Hungry for Change?

Feeding a world of 9 billion will take
new approaches.

Sustain + Ability

Global Sustainability Scholars program is a life-long network of peer and professional change leaders in global sustainability – building a world we all want to live in today and tomorrow.

Sustainability in the Human Age, Across Disciplines, Cultures and Borders.

- 2019 Global Sustainability Scholars Cohort will work with the SUGI / Food Energy Water Nexus CRA teams
- Students work with teams and issues in multiple Belmont Forum countries, connecting issues across disciplines, cultures and borders

- Undergraduates from groups under-represented in Science in Belmont Forum Countries
- 3 year intensive program for students from multiple Belmont Forum Countries working across borders and with Belmont Forum CRA teams

1ST YEAR

Sustainability in context
– travel abroad to learn
sustainability issues,
research and solutions.

2ND YEAR

Teams of Scholars
with paid internships
embedded in CRA
teams.

3RD YEAR

Individual paid
internships with CRA
team resulting in
capstone study.

**10 Week Paid
Professional Training
Experience With a
Global Sustainability
Organization**

2018 GSS Fellow

Ocean Sustainability with Future Earth

"I want to work with dynamic teams to build a future that can support tomorrow's generations alongside wildness."

– Adrienne Hampton, Evans School of Public Policy and Governance, University of Washington

"Growing up in Kenya and studying in the United States has exposed me to a range of view points and beliefs. These experiences have led me to believe that it's at the confluence of differing perspectives where the most powerful solutions lie."

—Viraj Sikand, Co-Founder of Kulisha

Next steps

Partnering with SUGI Nexus teams and match-making with with GSS fellows
