

JPI Urban Europe – Facts & Figures

- 20 European countries participating
- ~ 100 million Euro public investment for joint calls
- 80+ projects funded
- 25+ European funding agencies cooperating
- Cooperation schemes with Belmont Forum and China established
- 45+ research organisations cooperating in the Urban Europe Research Alliance

Vision of JPI Urban Europe

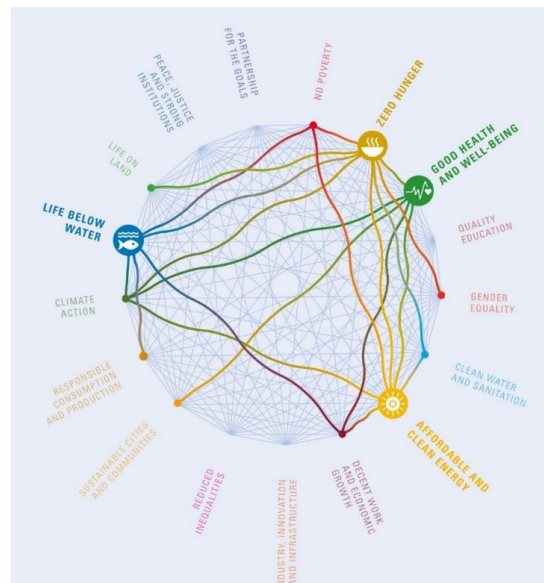

...to be the European platform to create and make available knowledge and robust evidence for sustainable urban development

Vision of JPI Urban Europe

...to be the European platform to create and make available knowledge and robust evidence for sustainable urban development

- Address key dilemmas for urban transitions
- Enhance capacities in research, innovation, policy and society
- Provide formats and instruments for experimentation and science-policy cooperation

SDGs Guide to Interactions, 2018

Digital transitions and urban governance

How can cities exploit the potential of rapid digitalisation for urban planning and governance while avoiding the risks of new inequalities and exclusion as well as addressing the consequences for jobs, value chains and privacy?

Sustainable Land-use and Urban Infrastructures

How can cities answer the demand for densification and infrastructure provision under the constraints of scarce resources, financial limitations, accessibility and affordability for all?

Inclusive Urban Public Spaces

How can cities provide multi-functional public spaces that serve the purposes of all groups of society within the given ownership situations, stakeholder interests, security concerns or densification needs?

Expected Impact in 3 Dimensions

CAPACITY BUILDING IN CITIES

for urban transitions and
local actions

The JPI Urban Europe Transition Arena

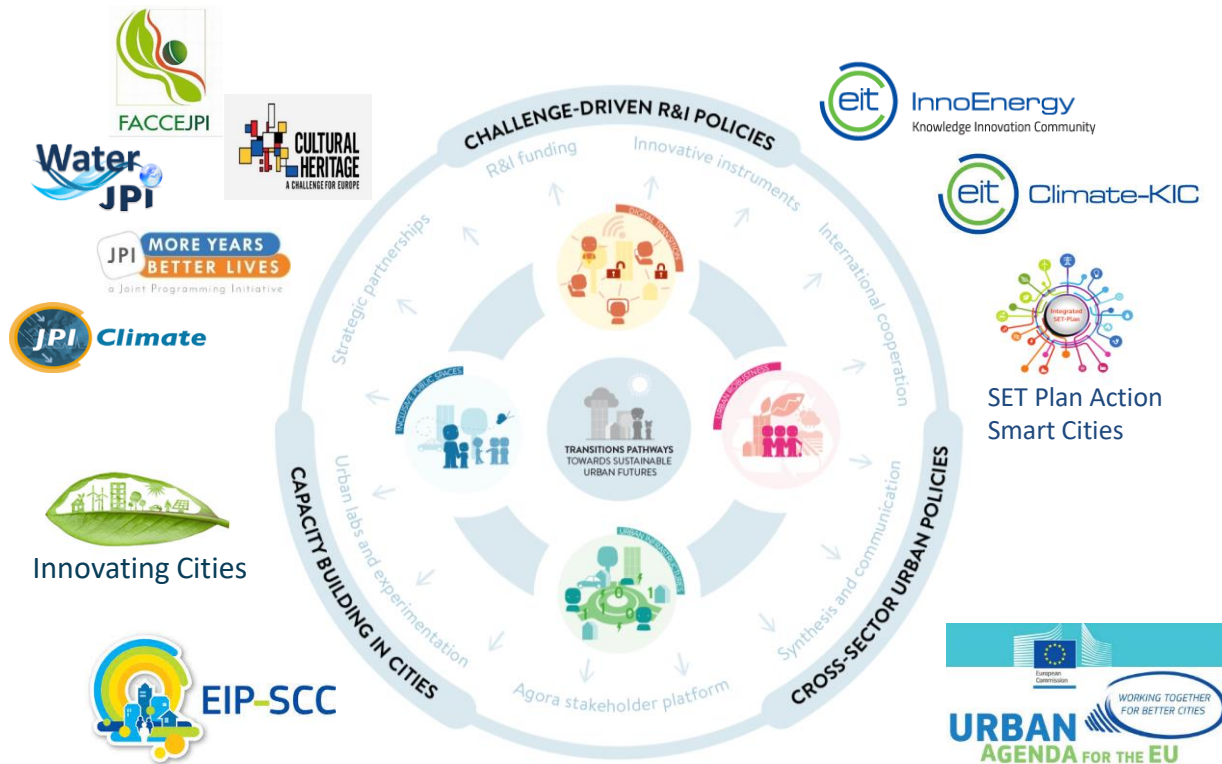

Integrated approaches across ‘silos’, stakeholder interests and disciplines

Inter- and transdisciplinary communities of practice

Accessible results and evidence for decision makers

The SRIA 2.0 Interfaces to Other Partnerships

Stay connected, get engaged!
