ENUTC Cofund Call: Wanted Projects

*The **projects** should clearly **build upon previous experiences of building capacity in practice, build upon existing knowledge of transformation capacities towards urban sustainability, resilience and liveability, and/or develop this knowledge further, and will be encouraged to use new technologies and tools aiming towards implementation of research and innovation and ensure possibilities for scaling up. Projects may also study transformation processes and transformative capacity building for increased knowledge and understanding** of such processes.*

ENUTC Cofund Call: Wanted Projects

- ✓ **Call Topic 1: Urban circular economies**
- ✓ **Call Topic 2: Community-based developments & urban innovation ecosystems**
- ✓ **Call Topic 3: Robust and resilient urban infrastructure and built environment**

WHAT CAN YOU APPLY FOR?

Transdisciplinary research and innovation projects that enable capacity building.

WHO CAN APPLY?

Researchers from universities and research institutes, practitioners from urban government authorities, and the private sector, from at least three countries participating in the call.

HOW MUCH CAN YOU APPLY FOR?

See the maximum for each partner in the national requirements.

Projects should study and/or support capacity building using integrated approaches to achieve urban transformations towards sustainability, resilience and liveability in at least one of the three call topics, that are transition pathways identified as challenges.
