

POSITIVE ENERGY DISTRICTS AND NEIGHBOURHOODS FOR CLIMATE NEUTRALITY

With this call, JPI Urban Europe aims to continue creating a transdisciplinary and cross-sectoral community working in the field of the energy transition in the urban context with focus on:

- Enhancing theoretical and practical knowledge for PED development in terms of both technological innovation and process innovation,
- Supporting the strategic development of key areas of action for PED development as defined within the PED Programme,
- Developing PEDs as building stones for the Horizon Europe Mission on Climate-neutral and Smart Cities to implement 100 climate-neutral cities by 2030
- High stakeholder involvement, collaboration and co-production of knowledge

The Call Topics	<p>Topic 1: PEDs towards climate neutrality: transforming existing urban neighbourhoods</p> <p>Topic 2: Making PEDs happen: process innovation and business models</p>
