1. Introduction

1.1 About your proposal

All the information and documents related to the call can be accessed on the following BTC-ENUTC website page: [BTC ENUTC 2023 Call](#)

Prior to submission, the Main Applicant must carefully read the call text and prepare the application following the full proposal template available on the call page:

- **Updates regarding the general information about the project and the project partners, an abstract and the financial information (planned budget)** to be submitted directly to the online platform at uefiscdi-direct.ro;
- **An extended description of the quality of work, project objectives, key activities, data management, added value of the international cooperation and impact** - to be submitted in PDF format at uefiscdi-direct.ro.

Please be aware that each funding organisation has its own funding criteria and regulations, which are mentioned in the call announcement. The financial information submitted at the transnational level is for evaluation purposes only. The presentation of the financial information to be submitted at the national level, for all proposals or for selected projects only depending on the funding organisation, might differ depending on the funding organisation (different categories of expenses, details about the distribution over time etc.).

The templates are available on the call's webpage. The applicants requesting funds from the respective agencies have to fill them in and upload them in the submission system (UDiManager).

1.2. About the Submission System

The ENUTC Call 2023 electronic submission system is based on the Executive Agency for Higher Education, Research, Development and Innovation Funding (UEFISCDI) electronic submission system, UDiManager (uefiscdi-direct.ro). The present document is designed to guide you through the submission process and ensure a smooth submission for the full proposal stage.

Each modified page in the submission platform must be saved (using the “Save” button) before going to another page.

1.3. Roles in the Submission Process

Each project proposal must be submitted by a project consortium consisting of at least three eligible applicants applying for funds in the call from **at least two different countries whose funders participate in the call.**

Applicants are defined as organisations/institutions/companies (i.e. legal entities).

The Principal Investigator (PI) is defined as the person who is the lead investigator for an Applicant. Therefore, a consortium has the same number of PIs as applicants.

The Main Applicant coordinates the whole project. In addition, a proposal must have at least two additional Co-applicants.

The proposal may also include Cooperation Partners, described below. Each PI is only allowed to participate in a maximum of two proposals, and only once as the PI of a Main Applicant.

The Main Applicant creates the proposal in the submission system and adds the other project partners. It is the responsibility of the Main Applicant to ensure that the partner information is properly filled in. When the proposal is complete, the Main Applicant can verify and finalize it. No further changes can be done after the proposal has been officially submitted.

If you have any questions during the application process, please contact the ENUTC Joint Call Office/Call Secretariat. If any technical difficulties occur, please contact the IT team coordinating the submission platform at support@uefiscdi.ro.

2. How to Connect

The Main Applicant can connect to the submission platform following the next steps.
